- 12.1** By providing you with products or services, we create records that contain your information, such as customer account records, activity records, tax records and lending and credit account records. Records can be held on a variety of media (physical or electronic) and formats.
- 12.2** We manage our records to help us to serve our customers well (for example for operational reasons, such as dealing with any queries relating to your account) and to comply with legal and regulatory requirements. Records help us demonstrate that we are meeting our responsibilities and to keep as evidence of our business activities.
- 12.3** Retention periods for records are determined based on the type of record, the nature of the activity, product or service, the country in which the relevant RBS company is located and the applicable local legal or regulatory requirements. We (and other NatWest group companies) normally keep customer account records for up to ten years after your relationship with the bank ends, whilst other records are retained for shorter periods. Retention periods may be changed from time to time based on business or legal and regulatory requirements.
- 12.4** We may on exception retain your information for longer periods, particularly where we need to withhold destruction or disposal based on an order from the courts or an investigation by law enforcement agencies or our regulators. This is intended to make sure that the bank will be able to produce records as evidence, if they're needed.
- 12.5** If you would like more information about how long we keep your information, please contact us at 03457 24 24 24.

14 Automated Processing

- 14.1** In the course of providing products and services to you we may process your personal information by automated means, to include profiling. What this means is that we will use computer software or predictive analysis to automatically evaluate your personal circumstances in order to identify risks or to predict certain outcomes. Examples of this type of processing include;
- automatically calculating loan/credit limits;
 - obtaining credit reference checks for certain products;
 - the assessment of account activity to detect and prevent fraud; and
 - the identification of customers in vulnerable situations so that we can offer them support or protection.
- 14.2** Profiling is a useful tool as we try to understand our customers and their specific needs in more detail. It gives us the opportunity to use personal information to tailor our marketing and product offering but also to ensure that we achieve fair customer outcomes. However, our customers do have rights and entitlements in relation to automated processing and these are covered in Table A above. You also have the right to opt out of profiling for marketing purposes.
